BASEBALL GAME FOR RED CROSS BENEFIT

A great game of baseball is being arranged by the Tonopah Extension Mining company, composed of ex-Coast league players, and the Sorensen Bear Cats, composing the very cream of local Tonopah talent, for the afternoon of Labor Day, Monday, September 3rd, at the baseball park south of town at 2:30 p. m.

Both teams have been practicing diligently for two weeks and are fast rounding into big league form and work has already commenced to put the playing field in the best of condition.

The game is for the benefit of the local chapter of the Red Cross and while no admission will be charged and everybody is cordially invited to be present and see this exciting contest, arrangements are being made to tag those who care to donate a quarter for this worthy cause.

The ladies of the Nye county chapter of the Red Cross are now hard at work at headquarters making sweaters, gloves, socks, caps and many other garments that are needed for the approaching winter under direction of Mrs. J. W. Sherwin and the funds of this game will be used to purchase, wools and other supplies.

As Tonopah has always been in the front ranks for all worthy causes it is anticipated that everybody in town will turn out and attend this big match game of baseball and help the cause along.

The complete line-up of both clubs will be published tomorrow.

TONOPAH HAS GRAND OUTLOOK

Oscar A. Daube and his son, Phillip Daube, are arrivals from New York. They were at Silver City and Virginia City for some time, where Mr. Daube is interested in the Overland Consolidated.

He says, however, that there is only one Tonopah and in interview he stated:

"I only hope that the citizens of this camp are long on all of the Tonopah stocks, for they can cash in in ninety days when the inevitable boom in silver stocks will strike the camp. I am not touting any particular stock, but I believe you can purchase any of them and realize a profit of 200 per cent in ninety days."

"You can buy them blindfolded, as was done in the boom days of Goldfield. The Great Western is going to make a big mine and within ninety days we will cash in our expectations in the western part of the camp, because the benefits of two years of hard work and the expenditure of \$200,000 will come to a focus and I am confident that mines will be opened up in the western part of the camp."

"The price of silver speaks for itself. Two years ago when the white metal was selling for 47 cents I made a prediction which has since been fulfilled, and I make another prophecy, that not only will dollar silver be reached, but it will go considerably above that, possibly to the parity that has been the dream of champions of the white metal since the day of demonization."

"The rise will probably go too high to be permanently sustained, just as it went too low, but such are the laws of fluctuation that the pendulum swings too far both ways in all commodities. Yet I look for a sustained price considerably above the dollar mark."

MAKES ITS OWN JUICE IN TONOPAH

TONOPAH EXTENSION COMPANY INDEPENDENT OF OUTSIDE PRODUCERS OF POWER

The new auxiliary electric plant at the Tonopah Extension mine has been turned over in an experimental run that lasted for three hours during which it was found that the service was highly satisfactory and that nothing remained but to make a few minor alterations. The plant is the first auxiliary to be installed in Tonopah and will be followed soon by the local plant of the Nevada-California Power company installed for the purpose of furnishing power for any emergency that may arise through storms in the White mountains or Sierras temporarily interfering with the service. The Tonopah Extension station is one of the most complete of its kind with capacity for generating 500 kilowatts or sufficient to keep the Victor pumps going and the mill in operation during any suspension. The equipment includes two 250 h. p. Babcock & Wilcox boilers and the first turbine engine brought to Tonopah. Energy is generated by use of fuel oil and in the test yesterday the current was shut through the line as far as San Bernardino, Cal.

GRAND MODISTE OPENING TOMORROW

Mrs. B. B. Harris, having received her splendid and up to the minute stock of ladies ready to wear garments, consisting of all the latest model dresses, waists, millinery, coats and ladies' novelties, will tomorrow morning open her new store to the public. This will be known as The Specialty Shop. Mrs. Harris desires to state that the stock of goods are in reach of all classes and the requirements of everybody will be met with prices to suit the purses of rich and poor. A cordial invitation is extended to all. The Specialty Shop is on the ground floor of the Palace Hotel building. Adv. A31

AMUSEMENTS

BUTLER THEATER

Valeska Suratt plays woman without heart on background of sin. Her part in "The Siren" is that of an adventuress who goes to death through act of a man whose life she ruined. The life of an absolutely unscrupulous woman is portrayed in William Fox's photoplay at the Butler, "The Siren," in which Valeska Suratt plays the leading role. Her name is Vivian Courtney, though five years earlier, she has adopted the name of Cherry Millard, and is known only by that designation. She has made the change after ridding her life, as she thinks, of a man known only "The Stranger." (Curtis Benton). One of the features of this production is the use of a \$2500 bedroom suite for Cherry's room. The set is Sixteenth Century style, and was found only after weeks of searching among the furniture stores of New York. Also one of Paula Blackton's two reel Country Life series, "The Little Strategist." This finds the Blackton children in a quaint costume of a past period, dividing the interest with a set of gay pickaninies, cows, dogs, rabbits and a few grown-ups in a sweet romance of the Civil War days in the South. Tomorrow Pauline Frederick flirts, Pauline Frederick intrigues, plotting, smiling in "Her Better Self," also Charlie Chaplin.

STRIKE ON MANHATTAN AMAL. REPORTED THIS MORNING

Manhattan Amalgamated stock was in lively demand today on reports of a strike on the 600 level where the Earl orebody was cut. Assays from the strike are said to be very good. A big flow of water ensued but the flood is kept under perfect control by the new pumps which handle 150 gallons a minute. The strike was 600 feet east of the shaft.

KIDDIES GIVE UP BIG SILVER DOLLAR

TWO LITTLE FOLKS CALL AT THE FIRST NATIONAL TO MAKE DEPOSIT

Late yesterday afternoon two little children, a boy and girl, who were not tall enough to look across the marble counters of the First National bank, called to see Arthur Raycraft, the manager. They were very business like and insisted on seeing the top man of the institution who quickly found they had a big silver dollar clutched tightly but not with the intention of hanging on to it for they stated their mission was to deposit the whole of the amount to the credit of the Kiddies Swimming pool. They were very earnest about the offering and it was evident that the money was the result of personal self denial that meant more than all the wealth of richer persons. The big cashier himself took pleasure in waiting on the visitors who went away delighted, holding in their possession a deposit slip for \$1.00 in the name of Francis and Olive James.

The total money deposited to the credit of the swimming pool is \$920.03 and about \$200 remains to be collected.

Wonderful Soda-- That's what they all say

—and why wouldn't they say it? It certainly is the most wonderful soda we have ever seen, and probably the very best soda that can be produced today. That is the reason. First, purity of ingredients, then a sanitary preparation, then a sanitary fountain and the cleanest and nearest service. That's what makes it good. That should appeal to you, and induce you to meet and treat at our fountain, now and for the balance of the summer. Any flavor you want; all the old-timers, and the newest ones.
